

2nd Day of National Research Infrastructures

large research infrastructures
platform

large research infrastructures

Philosophy of the large RI establishment:

...describe the best you can provide (for the users) and this will be evaluated ...

large research infrastructures

- ☐ Promoting usage and access to RIs, their technologies and knowledge
- ☐ Supporting quality research: evaluation criteria and prioritization
- ☐ Access to data and data management
- ☐ RI and their life cycle issues
- ☐ Sustainability and user community
- ☐ National and international meaning
- ☐ Participation on global impact

large research infrastructures

Presented to the G7 Science
Ministers' Meeting

Turin, 27-28 September 2017

**GROUP OF SENIOR
OFFICIALS ON
GLOBAL RESEARCH
INFRASTRUCTURES**

Progress Report 2017

“Research Infrastructures are taking an ever increasingly central role in the strategic planning of major scientific investments as they are one of the most effective enablers of research at the frontiers of knowledge in all scientific domains.”

large research infrastructures

Presented to the G7 Science
Ministers' Meeting

Turin, 27-28 September 2017

Case studies report

GROUP OF SENIOR
OFFICIALS ON
GLOBAL RESEARCH
INFRASTRUCTURES

Case Studies Report

- **Underground Laboratories Global Research Infrastructure-UG**
- **International Mouse Phenotyping Consortium Global Research Infrastructures-IMPC**
- **European Spallation Source**
- **Canadian High Arctic Research Station-CHARS**
- **High Altitude Water Cherenkov Observatory-HAWC**

large research infrastructures

Presented to the G7 Science
Ministers' Meeting

GLOBAL RESEARCH
INFRASTRUCTURES

Case Studies Report

- Underground Laboratories Global Research Infrastructure-UG
- **International Mouse Phenotyping Consortium Global Research Infrastructures-IMPC**
is an example of a consolidated globally distributed infrastructure and a reference on how to develop good practices in the data management dimension;
- European Spallation Source
- Canadian High Arctic Research Station-CHARS
- High Altitude Water Cherenkov Observatory-HAWC
